ASHAN BUDDHIMAL

PROFILE

I am currently studying for a Bachelor of Information Technology at the University of Moratuwa and am in my 3rd year. I have a strong understanding of front-end and back-end development and am eager to improve my skills by working collaboratively with experienced professionals in a practical environment. I am seeking an internship opportunity to gain hands-on experience.

• Student leader in MR/ Rathanapala M.V. 2015 -2016

EDUCATION

Bachelor of Information Technology – University of Moratuwa (Studying in 3rd year)

PROJECTS

Worker Discovery and Task Management System – I developed a web-based application for user registration, worker discovery, task assignment, report generation, feedback management, and communication between users and workers. WDTMS aims to provide an efficient platform to connect local workers with users who need help with everyday tasks, ensuring reliability, affordability, and ease of use.

- Technologies**:** React.js, JavaScript, Tailwind CSS, Java, Spring Boot framework, MYSQL
- Github Link – Backend ASHAN8BUDDHIMAL/FinalProjectWDTMS
- Github Link - Frontend ASHAN8BUDDHIMAL/Frontend_WDTMS

Pizza Shop Management System(Group Project)- We built a web-based application for pizza shop customer management, staff management, order handling, feedback management, inquiry management, and reporting.

- Technologies: HTML, CSS, JavaScript, PHP, MYSQL
- Github Link- ASHAN8BUDDHIMAL/Pizza-Buddy

Library Management System – A system was built here for staff management, user management, book booking, and book return.

- Technologies: C#, MYSQL

Whether Application - A mobile application developed using Android Studio and Java that allows users to check real-time weather information for any location. The app displays key weather data, including temperature (heat), precipitation, and other essential details.

- Technologies: Java, Android Studio

SKILLS

Language and Technologies: React.js, JavaScript, Tailwind CSS, Java, Spring Boot framework
Database: MYSQL database

Knowledge: OOP, Automation testing tool
Project document writing

Version Control Systems: Git hub.
